## MADE-TO-MEASURE BUILDINGS

Make a difference with a made-to-measure industrial building. Custom-built steel structures.

**Construction of made-to-measure steel-framed industrial buildings for different industries and purposes.**

## MODULAR BUILDINGS

Prefabricated modular buildings which can be disassembled. Speed, affordability, quality and versatility.

**ECORAPID®  
PLENAVE®  
QASITA®  
MARQUISOL®**

## ROOFS AND FACADES

Adapted to the demands of each project.

**The current state of the market means businesses must stand apart from their competitors, and the roof and facade are a company's calling card.**

## LIFELINE SYSTEMS (FALL PROTECTION)

Safety for work at heights. Official installers of lifeline systems by PROTECTA®, the international leader.

# COMPANY

**QUALIMETAL, S.A.** constructs metal buildings to your custom requirements.

More than 20 years of experience in the steel industry with metal structures for industrial buildings, halls, hangars, in addition to metal wall systems of all types have earned us our reputation for technical competence and specialisation.

# INDUSTRIAL

Industrial parks: development of industrial buildings, adjoining industrial units, large surface areas.

**QUALIMETAL S.A.** has broad experience in the construction of industrial parks and development of industrial buildings with steel structures and metal wall systems.

We adapt the optimum building solution for mechanically fastened metal structures to our clients' requirements.

QUALIMETAL<sup>®</sup> S.A.

More than 5,000 m<sup>2</sup> with unobstructed floorspace of more than 55 m<sup>2</sup>.

QUALIMETAL<sup>®</sup> S.A.

We endeavour to satisfy our clients' building requirements, even with the most complex needs.

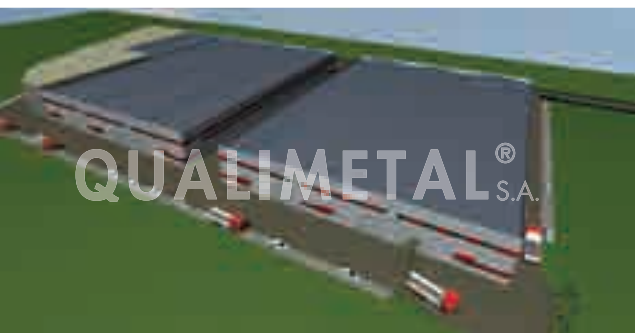

Companies trust QUALIMETAL S.A. for the construction of their facilities with the TURN-KEY system.

Construction of an industrial park with a surface area of 16,000 m<sup>2</sup> in Romania.

For speed of execution and excellent finishes, QUALIMETAL S.A. is the industry leader.

# OFFICES AND WAREHOUSES

## **SOLUTIONS FOR METAL BUILDINGS WITH CORPORATE IMAGE**

**QUALIMETAL S.A.** designs metal industrial buildings with important options for warehouse, workshop and office projects.

The custom and specialised study of the metal structure for industrial buildings allows the versatility to incorporate mezzanine floors and offices, providing extra interior space for client activities.

Our specialisation in metal wall systems allows us to provide buildings with custom aesthetics in line with the corporate image of each client.

# LONG SPANS

## UNONSTRUCTED

**QUALIMETAL S.A.** is aware of client needs for the maximum amount of unobstructed interior floor space.

The Engineering Department at **QUALIMETAL S.A.** adapts the metal structure to each of our client's needs, by designing industrial buildings with over 60 metres of totally unobstructed space.

Clients with specific needs for unobstructed floor space will find the optimum solution with our custom construction system...

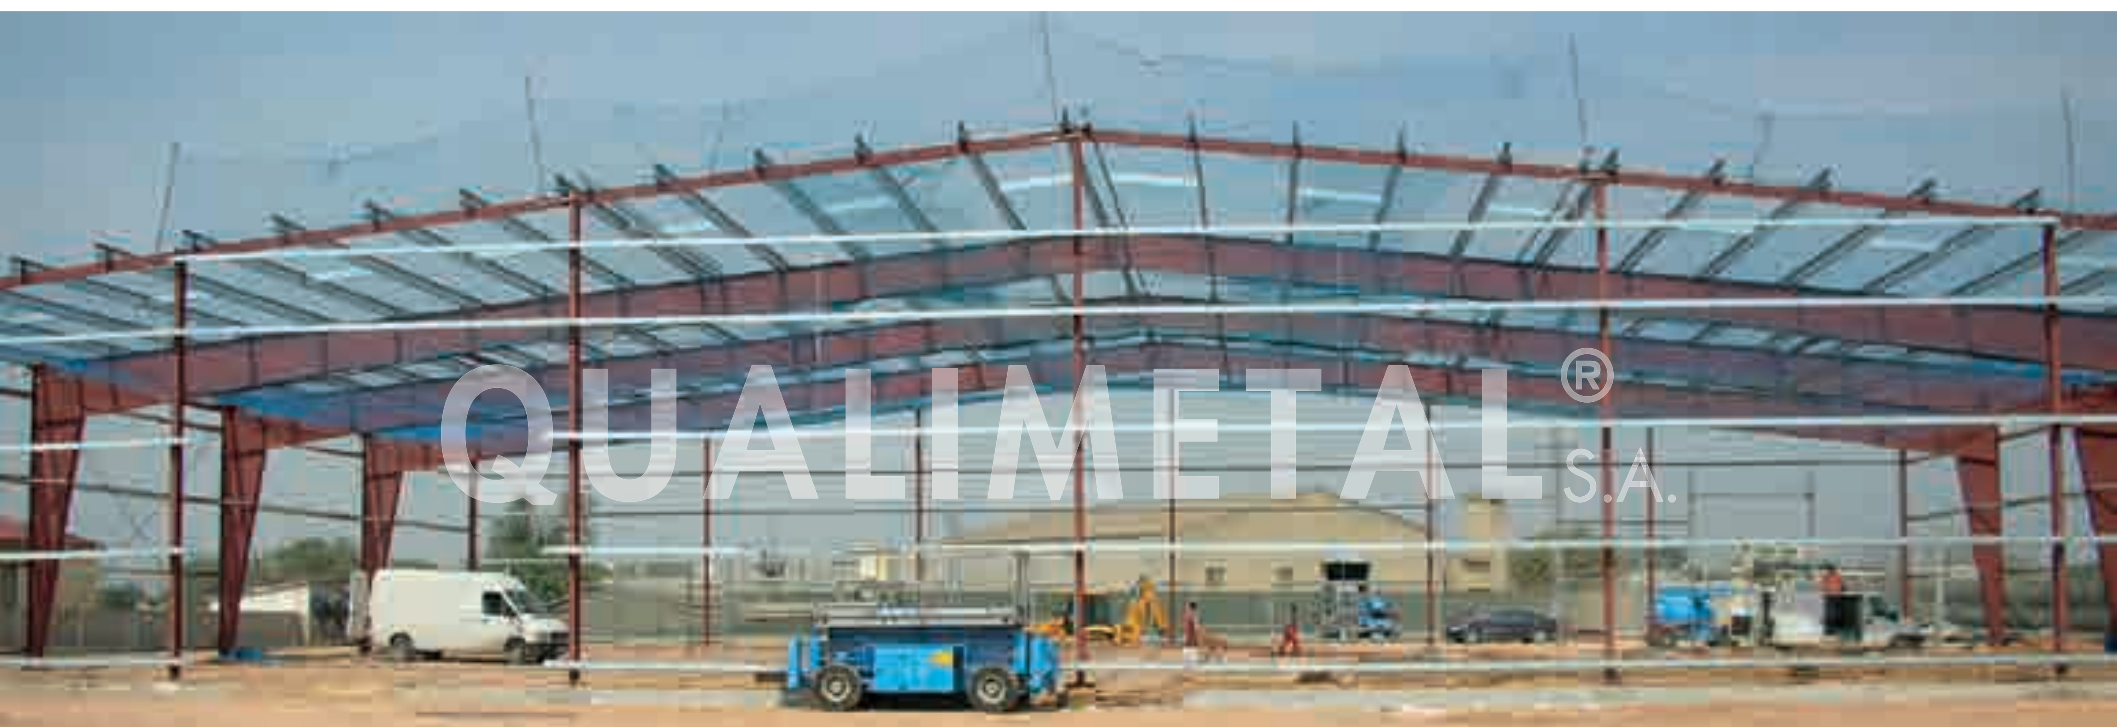

A column-free expanse of more than 60 metres allows this company the freedom to carry out its activity.

# LOGISTICS

## LOGISTICS CENTRES

Solutions for warehousing, distribution and transport complexes.

**QUALIMETAL S.A.** offers total reliability for the design of industrial or logistics centre projects required by clients in the sector.

Unrivalled speed of execution contributes to increasing the speed with which our clients recover their investment.

**QUALIMETAL<sup>®</sup>** S.A.  
INDUSTRIAL BUILDINGS

# SPORTS CENTRES

## **SPORTS CENTRES**

The needs for large, unobstructed expanses and exquisite finishes are combined in these types of buildings.

Speed and adaptation to the needs for each type of sporting facility.

# QUALIMETAL<sup>®</sup> S.A.

## CLUB DE BALONCESTO MENORCA SPORTS CENTRE

A benchmark in the world of sports and construction, with turn-key facilities built to hold 5,017 spectators in the record time of 10 weeks.

From design to reality in only 10 weeks.

Sports and equestrian centres adapted to each requirement for building use.

# SPECIAL STRUCTURES

## **STEEL STRUCTURES: FOOTBRIDGES, ROAD BRIDGES, RACKS, TOWERS...**

Custom-built steel structures. We design steel structures of all types to satisfy client requirements.

Made-To-Measure Buildings Department at **QUALIMETAL S.A.** constructs steel structures using fast and efficient design solutions for any use: footbridges, road bridges, telecommunications towers, shelters.

**TELECOMMUNICATIONS TOWERS** officially approved to a height of 30 metres, including provision of lightning protection.

**SHELTERS** specially designed for car parks.

**ROAD BRIDGES** and **FOOTBRIDGES**.

**SPECIAL STRUCTURES** for large cantilevers.
