MADE-TO-MEASURE BUILDINGS

Make a difference with a made-to-measure industrial building. Custom-built steel structures.

Construction of made-to-measure steel-framed industrial buildings for different industries and purposes.

MODULAR BUILDINGS

Prefabricated modular buildings which can be disassembled. Speed, affordability, quality and versatility.

MARQUISOL®**

ROOFS AND FACADES

Adapted to the demands of each project.

The current state of the market means businesses must stand apart from their competitors, and the roof and facade are a company's calling card.

LIFELINE SYSTEMS (FALL PROTECTION)

Safety for work at heights. Official installers of lifeline systems by PROTECTA®, the international leader.

COMPANY

QUALIMETAL S.A. offers fast and economical solutions for modular buildings that can be adapted to your needs.

The company's 20 years' experience in the steel industry and the different brands of its own patented modular products, particularly buildings **ECORAPID[®]** and **PLENAVE[®]**, have made it a leading producer of prefabricated structures both in Spain and abroad.

GENERAL CHARACTERISTICS

ECORAPID® PLENAVE®

These products offer the market a solution through optimisation of production processes and assembly, achieving a degree of quality on a par with that of the large buildings erected by **QUALIMETAL S.A.**

SPEED

Maximum mechanisation in the factory, combined with standardisation, allows client demands to be met.

SPECIALISATION

Assembly performed by the company's own highly specialised personnel, allowing **QUALIMETAL S.A.** to offer even immediate delivery times, which are incomparable with other products.

AFFORDABILITY

We offer our modular solutions at a much more economical price than that of conventional construction.

REDUCED FOUNDATION WORK

Contributing to lowering end costs, because of our advanced engineering system.

VERSATILITY

In the ability for disassembly, easy extension, relocation, variations in foundation work, etc. and 100% recoverable materials in case of relocation and/or resale.

QUALITY AND DESIGN

With a galvanised structure, pre-enamelled wall systems and finishings that can be seen in the many projects that have been completed.

GUARANTEE

Our patented modular solutions, **ECORAPID®** and **PLENAVE®**, are guaranteed to comply with all existing regulations governing snow and wind loads.

The installation of **solar panels** and adaptation to the requirements for **renewable energies**, allow our modular solutions to be present in every market and for all sorts of uses.

ECORAPID®

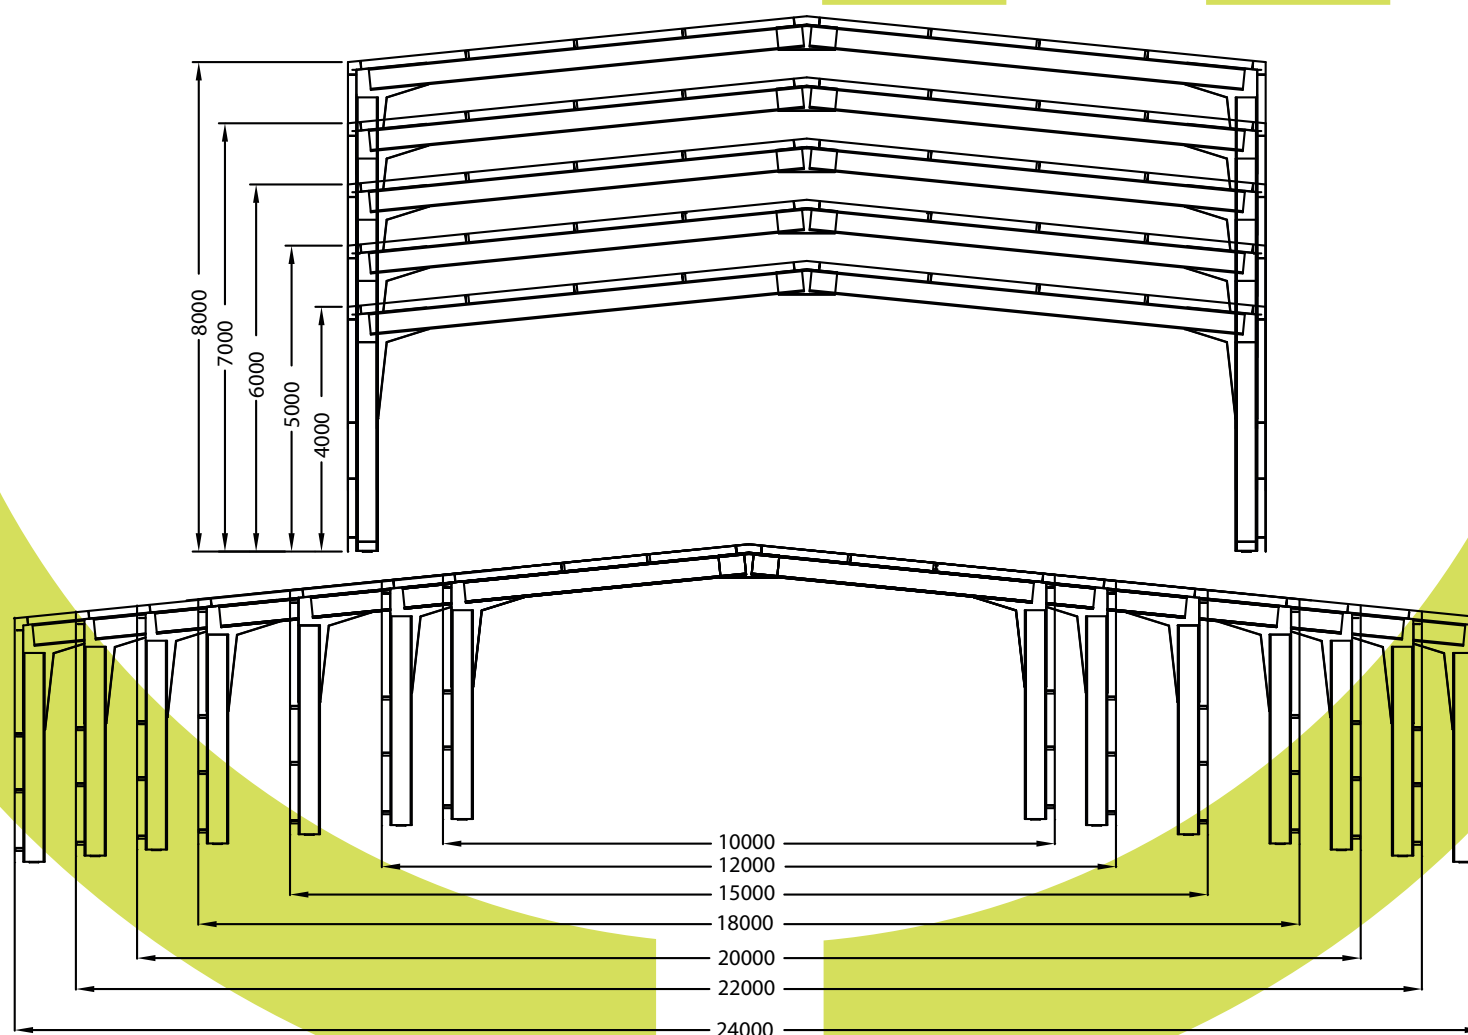

SIMPLE, FAST AND ECONOMICAL

It is the quick-to-build and economical modular building that is best suited to your needs for time, price and design.

In less than 4 weeks from signing the contract, you can have your industrial building, hangar, warehouse, sports centre, agricultural building, garage, workshop, etc.

Affordability, speed and versatility for you. Because its metal structure and wall systems are designed to satisfy the current needs for industrial, agricultural and private buildings, among others, of any client.

PLENAVE®

SMALL-SCALE MODULAR SOLUTIONS

This modular industrial building is easy to disassemble and totally recoverable.

Comprising a series of independent modules whose structure is made up of frames made from galvanised, cold-rolled steel profiles. In addition, the entire building is closed on both sides by gable ends.

We have developed 7 models with standard dimensions that can be adapted to suit all of your needs.

QASITA®

Modular construction of metal structure.

Major savings in assembly and transport.

**Exterior wall and 60-mm-thick sandwich panel
suspended ceiling.**

**Internal partitions
in 40-mm-thick sandwich panel.**

**Includes pre-wiring
and metal trim.**

Available from 42 m².

MARQUISOL®

Modular.

Lightweight structure.

Minimum foundation work.

Fast production and assembly.

Adaptable to any design.
